

Resolve Through Sharing[®]

BEREAVEMENT EDUCATION SINCE 1981

Perinatal Death

Death through miscarriage, ectopic pregnancy, stillbirth and newborn death

Neonatal and Pediatric Death

Infant and child death including prematurity, serious illness, trauma, complex medical conditions, abuse

Pediatric and Adult Death

Child and adult death, including serious illness, complex medical conditions, trauma, suicide, unexplained death and stigmatizing death

Coordinator (train-the-trainer)

Attend our training to learn the latest, evidence-based best practices in bereavement care.

Why RTS?

RTS works. Research shows that death is the most anxiety-producing situation that nurses face. RTS bereavement training provides participants with a rich educational experience that increases their knowledge, skill and comfort levels while providing bereavement care across the lifespan.

Resolve Through Sharing® (RTS) Bereavement Training: Perinatal Death

Training Focus

Perinatal death through miscarriage, ectopic pregnancy, stillbirth, and newborn death

This comprehensive training and the RTS model of bereavement care support the Triple Aim and ACO requirements for consistent delivery of quality patient care. You'll discover effective ways to incorporate RTS concepts into everyday practice that care teams and leadership will find invaluable.

Topics Covered

- Attachment before the baby is born
- Bereaved parents and siblings
- Communication techniques, including Guided Participation, the use of silence, conveying connection, relationship creation, and providing options
- Removal of mechanical ventilation and life-sustaining treatments
- Perinatal palliative care
- Decision making with parents
- Ritual, photography, keepsakes, and spiritual care
- Follow up
- Care for the caregiver

Who Should Attend

- Nurses and Techs—Labor and Delivery, Post and Ante Partum, Emergency Room, Same-Day Surgery, Neonatal Intensive Care, Public Health
- Midwives and Doulas
- Chaplains
- Social Workers
- Child Life Specialists
- Genetic Counselors
- Ultrasonographers
- Physicians (OB/Family Medicine/Fertility Specialists)
- Emergency Medical Services

Resolve Through Sharing® (RTS) Bereavement Training: Neonatal and Pediatric Death

Training Focus

Infant and child death, including prematurity, serious illness, trauma, complex medical conditions, suicide, and abuse

Are you interested in providing the best care possible when a newborn or older child dies? Our relationship-based approach to neonatal and pediatric bereavement care will help develop or enhance your knowledge, level of skill, and personal awareness for providing bereavement care.

Topics Covered

- Death in the NICU (more in-depth than in the perinatal course)
 - Extreme prematurity
 - Loss of one or more multiples
- The emotional needs of the dying child (more in-depth than in the pediatric and adult course)
- Bereaved parents and children
- Communication techniques, including Guided Participation, the use of silence, conveying connection, relationship creation, and providing options
- Traumatic, unexplained, and stigmatizing death
- Removal of mechanical ventilation and life-sustaining treatments
- Palliative care and hospice
- Advance care planning for all ages
- Decision making with parents
- Ritual, photography, keepsakes, and spiritual care
- Follow up, including grief conferences
- Care for the caregiver

Who Should Attend

- Children's Hospital Staff
- Nurses and Techs—Neonatal Intensive Care, Pediatric Clinic/Office, Pediatric Hospital Unit, Pediatric Intensive Care, Pediatric Oncology, Palliative Care and Hospice, Public Health
- Pediatricians
- School Nurses
- Chaplains
- Social Workers
- Child Life Specialists
- Genetic Counselors
- Emergency Medical Services

Resolve Through Sharing® (RTS)

Continuing Education

Continuing education credits and continuing clock hours are available to nurses, social workers, and chaplains for all courses. Find complete course and continuing education details at ResolveThroughSharing.org

**Join the 50,000+ who have attended RTS Training!
Here's what some of them have to say.**

“This was an amazingly informative and powerfully moving course. I would recommend RTS to every person who cares for these patients...it is eye-opening to think of all the ways we can standardize and better our care for them.”

“One of the most beneficial conferences I have been to. The topic of “hope” and what families hope for in situations surrounding death brought a new perspective to my thoughts on death. I will definitely be incorporating this into my care. Thank you.”

This RTS training truly is the “gold standard” of training for perinatal bereavement. As a manager, it is valuable to have RTS as baseline training/competency for [meeting] Joint Commission [standards].
